REMARKS

1
2 A replacement sheet of drawings for sheet numbered 2/4
3 is presented herewith showing numeral 24 and 33 included
4 thereon. An Annotated Marked-up Drawing is also included
5 showing where numerals 24 and 33 are to be located and are
6 appropriately circled and marked with the words "add number"
7 since RED ink does not show in a fax. Numeral 24 indicates
8 the "forwardmost surface of the back portion" in claim 3, and
9 numeral 33 the "blind bore on plate" in claim 7. No new
10 matter has been added because foundation for numeral 24 first
11 appears on page 6, line 13 and foundation for numeral 33 also
12 first appears on page 6, line 31. It is believed that the
13 drawing as corrected now comply with 37 CFR 1.83(a), and
14 accordingly these features do not need to be canceled from the
15 claims. Accordingly, objections to claims 3 and 7 are no
16 longer tenable for not showing in the drawings respectively
17 the features of: "a forwardmost surface" and "a blind bore".
18 It is noted that the examiner indicates that "The
19 drawings are objected to as failing to comply with 37 CFR
20 1.84(p) (5) because they include the following character(s) not
21 mentioned in the description: 4,6,8.". Accordingly the
22 examiner's attention is directed to page 3 of the
23 specification which is the BRIEF DESCRIPTION OF THE DRAWINGS,
24 wherein reference characters 4, 6, and 8 are mentioned.
25 Specifically the phrases at the end of the descriptions of:
26 FIGURE 4 indicates "ARROW 4 in FIGURES 1-3;";
27 FIGURE 6 indicates "ARROW 6 in FIGURES 1-3;"; and
28 FIGURE 8 indicates "ARROW 8 in FIGURES 1-3;". Accordingly it
29 is believed that the drawings are correct in the showing of

1 numeral 4, 6 and 8 and that a correction with regard to such
2 is not required, nor is the removal of characters 4, 6 and 8
3 from the drawing required.

4 Claims 1-3 have been canceled without prejudice or
5 disclaimer. Claim 4 has been amended in independent form to
6 include all of the limitations of the base claim and any
7 intervening claims, as kindly suggested by the examiner to be
8 allowable. Claims 5-23 remain unchanged and depend from
9 claims now believed allowable. Accordingly included is a
10 listing of all claims and those amended are presented in only
11 marked up version in compliance with the latest REVISED
12 AMENDMENT FORMAT to CFR Title 37 Sec. 1.121. and Published on
13 the PTO web site on Feb. 26, 2003.

14 In view of the foregoing remarks and amendments, it is
15 believed that this application is in condition for allowance.

16 Reconsideration and a favorable action are now kindly
17 requested, and in the event that this specification or claims
18 should require any further amendment, the kind assistance of
19 the Examiner in entering an Examiner's amendment will be
20 greatly appreciated. It is suggested that such amendment may
21 be optionally supplemented by a phone conversation and
22 confirmed by form PTOL-327, Box 4b, so as to expedite the
23 formal allowance of this application.
24

Respectfully submitted,

25 Richard L. Miller
